ZFS

Central locking system. Modular. Flexible. Individual.

Monroe offers the first completely configured central locking system on the market including all components. The free configuration of the ZFS offers a lot of choices, like a safe braking mode of all four casters or a cost-effective partial brake mode. This takes into account individual ergonomic requirements. The color coding of the brake pedals is self-explanatory and it's position indicates immediately and precisely the brake status.

Single & Double-Sided Cable Guards

Cable! Hoses! Well protected!

E.g. operating rooms: the cable guards push cables and hoses out of the way preventing damage to the cable or crushing the hose.

NEW

The central locking single wheel caster for hospital beds series 898 and 899!

INNOVATIVE. SAFE. DURABLE.

- Wheel diameter 125 mm, 150 mm, and 200 mm
- Low forces needed to apply central locking system
- Outstanding swivel and running properties
- Branding (e.g. logo, color etc.) available
- Very easy to clean
- Options: conductive and washable version

Hospital & Homecare Beds/ Operating Tables

SERIE558/559

- Especially suitable for hospital beds and operating tables
- Smoothly operating total braking system
- Easy swiveling and rolling with precision ball bearings
- High load capacity up to 200 kg per castor (Series 558X/559X)

SERIE568/569

- Low overall height
- Wheel Ø 100, 125, 150 mm
- Available in washable and electrically conductive version
- Especially suitable for hospital beds and operating tables

SERIE888/889

- Interlocking brake system
- Maximum flexibility
- Outstanding swivel and running properties
- Especially suitable for hospital beds

SERIE590/595

- Linkage hydraulic brake system along with stamp
- Developed to be used for operating tables
- Wheel Ø 100, 150 mm
- Excellent running and swiveling properties
- High load capacity: series 590 up to 295 kg/series 595 up to 150 kg

Medical Devices

SERIE550/551/552

- Wheel Ø 100-150 mm
- Non-marking polyurethane tyre
- Also available in an electrically conducting version

SERIE570/572

- Optimized swiveling performance with two precision ball bearings
- Wheel Ø 100 -125 mm
- Bolt hole fitting 10 mm and 12 mm
- Easy assembly by alien head screw

SERIE557

Multi-functional Brake

Combination of total and directional lock brake. This concept enables the user to operate three different functions by one brake pedal.

SERIE551D

Special Solution

- Wheel Ø 125 mm

The double brake pedal design provides easy access to the brake function - independent from the position of the caster

Hospital Equipment

SERIE840-845

- Wheel Ø 75-125 mm
- Also available in non-rusting version

SERIE880-882

- Wheel Ø 100 and Ø 125 mm
- Interlocking brake system
- Outstanding swivel and running properties

SERIE550/551/554

- Wheel Ø 65 - 75 mm
- High maneuverability
- Cosed housing for efficient deaning

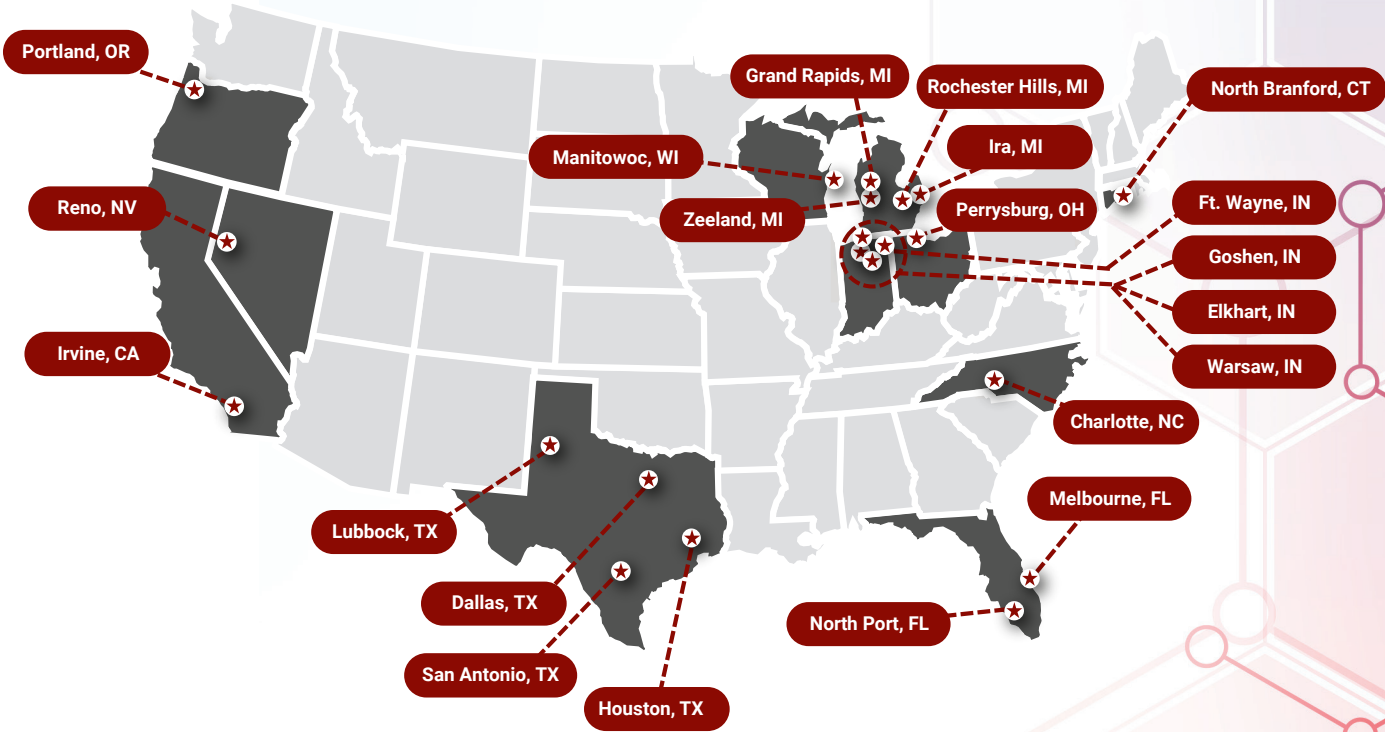

SERIE315-316

- Wheel Ø 50/75/100 mm
- Robust and economical solution
- Ø 50 mm wheel brake, Ø 75 - 100 mm total brake
